Districts of Australia

# **FUNDING PARTNER**

# **RESEARCH**

# **PhD SCHOLARSHIPS**

The Funding Partners program allows Rotary Clubs and Districts the opportunity to participate in an area of health research of their choice through a PhD research scholarship. AUSTRALIAN ROTARY HEALTH administers the scholarship.

The Funding Partners program is available to all Rotarians, individual Rotary Clubs, multi-Club partnerships, Rotary Districts and corporations within Australia.

The PhD scholarship receives \$35,000 p.a., tax-free for up to 3 years. In addition, a 6-month extension may be granted to scholars.

The breakdown of annual contributions are:

- Donation from Rotary Club \$12,000,
- AUSTRALIAN ROTARY HEALTH \$11,000 and
- University/Research Institute \$12,000

**All monies paid to Australian Rotary Health constitute a DONATION to Australian Rotary Health. All donations to Australian Rotary Health are tax-deductible and cannot be returned.**

The Clubs donation to a PhD scholarship is therefore \$36,000 (minimum) or \$42,000 (maximum). Clubs must be prepared to donate \$42,000 if required.

Partners choose ...

- ◆ Area of health
- ◆ Name of scholarship
- ◆ Location of research, e.g. State of Australia or Australia wide

Australian Rotary Health organises ...

- ◆ Advertising
- ◆ University arrangements
- ◆ Selection
- ◆ Administration

*All partners receive reports from the scholars and can have regular contact*
